New link for buyers and suppliers

UP-TO-THE-MINUTE technology is now being used to match potential
trade customers seeking specific fish or fish products with UK suppliers.

The Sea Fish Industry Authority has established a new supplier
database in response to the hundreds of inquiries from potential
customers it receives every year. The ***database*** enables every
inquiry to be matched with a selection of targeted,
specialist suppliers.

Productivity through data organization
Phil Gaynard
Work Study v46n3 PP: 90-98 1997
ISSN: 0043-8022 JRNL CODE: WST
WORD COUNT: 4421

...ABSTRACT: use these data - the benefits are increased immeasurably. This article describes a particular approach to data structure, coding, organization and use based on detailed measurement data and the use of specific hardware tools to provide linked database and flowchart-presentation capabilities.

...TEXT: the diagrams automatically from text files.

A logical extension of the flowcharting approach is to link the script file (which creates a flowchart on allCLEAR) to the analysis routines in our...to grade of staff and resources available; this process is based on the operational intelligence link with the latest data from the TimeBase which contributes to operator instructions at all junctions...

...appropriate interval with resources from a section which has a surplus.

It is possible to identify different work patterns for shift working, different days, flexitime working, etc. and the system can...

...information via the keyboard or by way of file transfer from other computer configurations and ***data*** capture equipment.

One can discern existing workloads and plan for proposed increases/decreases according to procedural rules associated with each order, department, ***supplier*** and customer. The scheme of preparing and organizing the data ensures that management can forecast the workload in relation to the available capacity such that...
